### **Comments by directors**

*Comments on the following matters are required by ASX or, in relation to the half yearly report, by AASB 1029: Half-Year Accounts and Consolidated Accounts. The comments do not take the place of the directors' report and statement (as required by the Corporations Law) and may be incorporated into the directors' report and statement. For both half yearly and preliminary final reports, if there are no comments in a section, state NIL. If there is insufficient space to comment, attach notes to this report.*

### **Basis of accounts preparation**

*If this report is a half yearly report, it is a general purpose financial report prepared in accordance with the listing rules and AASB 1029: Half-Year Accounts and Consolidated Accounts. It should be read in conjunction with the last +annual report and any announcements to the market made by the entity during the period. [Delete if preliminary final statement.]*

### **BASIS OF PREPARATION OF HALF-YEAR FINANCIAL REPORT**

The general purpose half-year consolidated Financial Report has been prepared in accordance with the requirements of the Corporations Law, Accounting Standard 1029 "Half-Year Accounts and Consolidated Accounts" and Urgent Issues Group Consensus Views. It is recommended that this half-year Financial Report be read in conjunction with the 30 June 2000 Annual Financial Report and any public announcements by Toll Holdings Limited and its Controlled Entities during the half-year in accordance with continuous disclosure obligations arising under the Corporations Law.

The accounting policies have been consistently applied by the entities in the economic entity and except where there is a change in accounting policy, are consistent with those of the previous financial year and corresponding half-year.

The carrying amounts of non-current assets are reviewed to determine whether they are in excess of their recoverable amount at the end of the half-year. If the carrying amount of a non-current asset exceeds the recoverable amount, the asset is written down to the lower amount. In assessing recoverable amounts the relevant cash flows have not been discounted to their present value.

## Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section.
2. **True and fair view** If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.
3. **Consolidated profit and loss account**
  - Item 1.1 The definition of "operating revenue" and an explanation of "sales revenue" (or its equivalent) and "other revenue" are set out in *AASB 1004: Disclosure of Operating Revenue*.
  - Item 1.2 'Share of associates' "net profit (loss) attributable to members" would form part of "other revenue" in *AASB 1004* to the extent that a profit is to be reported. ASX has elected to require disclosure of a share of a loss in the same location for consistency of presentation.
  - Item 1.4 "+operating profit (loss) before abnormal items and tax" is calculated before dealing with outside +equity interests and

+ See chapter 19 for defined terms.

extraordinary items, but after deducting interest on borrowings, depreciation and amortisation.

- Item 1.7      This item refers to the total tax attributable to the amount shown in item 1.6. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as operating expenses (eg, fringe benefits tax).
4.      **Income tax**      If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.
5.      **Consolidated balance sheet**  
**Format**      The format of the consolidated balance sheet should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029* and *AASB 1034*. Banking institutions, trusts and financial institutions identified in an ASIC Class Order dated 2 September 1997 may substitute a clear liquidity ranking for the Current/Non-Current classification.
- Basis of revaluation**      If there has been a material revaluation of non-current assets (including investments) since the last +annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 1010: Accounting for the Revaluation of Non-Current Assets*. If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required. Trusts should also note paragraph 10 of *AASB 1029* and paragraph 11 of *AASB 1030: Application of Accounting Standards etc.*
6.      **Statement of cash flows**      For definitions of “cash” and other terms used in this report see *AASB 1026: Statement of Cash Flows*. Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 1026*. +Mining exploration entities may use the form of cash flow statement in Appendix 5B.
7.      **Net tangible asset backing**      Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the +ordinary securities (ie, all liabilities, preference shares, outside +equity interests etc). +Mining entities are *not* required to state a net tangible asset backing per +ordinary security.
8.      **Gain and loss of control over entities**      The gain or loss must be disclosed if it has a material effect on the +accounts. Details must include the contribution for each gain or loss that increased or decreased the entity’s consolidated profit (loss) from ordinary activities and extraordinary items after tax by more than 5% compared to the previous corresponding period.
9.      **Rounding of figures**      This report anticipates that the information required is given to the nearest \$1,000. However, an entity may report exact figures, if the \$A’000 headings are amended. If an entity qualifies under ASIC Class Order 98/0100 dated 10 July 1998, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A’000 headings are amended.

+ See chapter 19 for defined terms.

10. **Comparative figures** Comparative figures are the unadjusted figures from the previous corresponding period. However, if there is a lack of comparability, a note explaining the position should be attached.
11. **Comparative figures when equity accounted information first included in the accounts** There will be a lack of comparability in the figures for the previous corresponding period when equity accounted information is first included if this information has a material effect on the consolidated accounts. If it does have a material effect, attach a note providing a better comparison by restating "Operating profit (loss) after tax attributable to members" (item 1.10) and "Investments in associates" (item 4.8) for the previous corresponding period to incorporate equity accounted information. In addition, as required by Note 1, no directional or percentage changes in profit are to be reported in the "For announcement to the market" section. Where the disclosures were not previously required in Appendix 4B, no comparatives need be shown.
12. **Additional information** An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the +ASIC under the Corporations Law must also be given to ASX. For example, a directors' report and statement, if lodged with the +ASIC, must be given to ASX.
13. **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if one) must be complied with.
14. **Corporations Law financial statements** As at 1/7/96, this report may be able to be used by an entity required to comply with the Corporations Law as part of its half-year financial statements if prepared in accordance with Australian Accounting Standards.
15. **Issued and quoted securities** The issue price and amount paid up is not required in items 18.1 and 18.3 for fully paid securities.
