SEGMENT INFORMATION

The Group derives revenue from the provision of the total logistics solution through use of economy and express freight forwarding services, storage, warehousing and distribution of freight nationally by road, rail and sea, rail linehaul operations, international forwarding, ports management and time sensitive freight distribution services. These activities are inter-dependent and inter-related as a collection of related services forming one segment within the transport and logistics industry.

Geographical Segments

The consolidated entity operates predominantly in Australia and all material revenue, operating profit before income tax and segment assets relate to operations within Australia.
