

Bernard McInerney Company Secretary

Mr Bernard McInerney is Company Secretary for Toll Holdings Limited.

He joined Toll not long after the 1993 public float, in March 1994, as General Manager Finance and Company Secretary.

Mr McInerney is now the Group Company Secretary, and is a key member of the global management team and is responsible for regulatory and legal functions across the Group. He has held those responsibilities through Toll's extraordinary acquisitive growth, including the acquisition of Patrick Corporation – which has been described as the “biggest and toughest hostile takeover in Australian history”.

Prior to joining Toll, Mr McInerney worked for five years in a Melbourne-based local transport and container group and prior to that, five years within the transport division of a major international transport company.

Mr McInerney's interests include his family life, beach volleyball, jetskiing and travel.
