

Toll Group Health and Safety Policy

Overview

The Toll Way is the underpinning foundation of our core beliefs and values which guides our decisions and actions. This policy sets out Toll's position on health and safety.

At Toll we believe that all injuries are preventable and that no task is so important that it can't be done safely. This underpins our belief that everyone has the right to go home safely, and together we make it happen.

Fundamental to achieving this vision is holding each worker including management, responsible and accountable for health and safety, providing training to work safely and consultation and engagement. Working safely is a condition of all employment arrangements.
